DATE MAILED:

**Please find below and/or attached an Office communication concerning this application or proceeding.**

**Commissioner for Patents**

A shortened statutory period for reply is set to expire 2 months from the mailing of this communication. Applicant may extend the time period for reply up to six months in accordance with 37 CFR 1.136(a).

The rejection under 35 USC 112 shall be withdrawn without prejudice such that all elected claims will be examined on their merits.

However, applicant is requested under 37 CFR 1.105 to submit a concise listing of all elected claims summarized and grouped according to their common or distinct subject matter to facilitate efficient and thorough examination. This information can take the form of an informal chart, graph or list and should not exceed one or two pages in length.

Although large numbers of claims may sometimes be necessary in certain complex applications, when these must be filed, applicants should be prepared to assist the agency in ensuring these applications do not absorb a disproportionate amount of the limited time the USPTO has to review applications. It is noted that the benefit of efficient and thorough examination of all elected claims that will result from this information is greater than the burden on applicant to produce the same.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to David Comstock whose telephone number is (571) 272-4710. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

D. Comstock
